**WHEN SMALL
BUSINESSES NEED TO RUN LIKE
BIG BUSINESSES...**

THEY CHOOSE DSM

- You can rely on DSM as a valuable partner that takes the mystery and risk out of your companies IT and computing system requirements.
- For over 18 years, DSM has been providing IT service and support for small and mid size companies with 5 to 100 workstations.
- Our over 20 expert technical staff are full time employees that you can count on.
- We are a service based company that understands your needs and will be there for you, 24 hours a day, 7 days a week to make sure you are taken care of.
- We live IT day and night. We have deep knowledge and expertise that ensures your needs are met... No experimenting.
- We have dedicated R&D to ensure we provide you with solutions you can count on.

We Take Care Of You...

Our business is taking care of your IT systems so you can focus on your business.

As your IT department, we take responsibility for the operation and security of your computing systems to make sure you are protected.

We help your business thrive through the use of computing technology.

We never sleep... Our automated systems are watching your office 24 hours a day, 7 days a week and our valued technical staff are also standing by for service and support.

Complete Service & Support

We deal with all the issues. Our on-site service, help desk and remote access support rounded out by our state of the art system monitoring and management, allows us to deal with ALL your IT requirements.

We Are Your IT Department

Why should your business not benefit from the expertise of a dedicated IT department, like the big companies have? DSM will provide you with this level of technology expertise.

Rely On Our Experience

Our over 20 full time staff have deep and vast technical expertise and we work with Information Technology every day and night... Our expertise is hard earned and real, on top of certifications and on-going education.

We Never Sleep

It's a 24 hour a day job for us... We are on-call all the time, our automated systems are watching your office telling us if something is not right and allowing us to react to your needs even before you know it.

From Start To Finish

Our solutions start with an analysis of your needs, to create the best solution for your company. From there, we provide the implementation, setup and configuration of your system with complete and on-going service, support and system management.

Cost Is An Issue

For over 18 years, we have focused on providing the proper cost effective solutions for our clients. We are focused on maximizing your investment and managing costs to ensure you get great value.
